

COROMANDEL
Infotech India Ltd.

Eventitude offers pleasure to organize events,
assures spectator safety, enjoyment
with no compromise on revenue.

Eventitude

Crowd Control System

What is Eventitude?

Eventitude is an adaptable, easy-to-use Event Management System that gives you complete control to manage the crowd during any event.

Eventitude can be easily integrated into your existing setup as an online or offline application. The online mode supports real-time data collection using GPRS/ Wi-Fi wireless network standards, whereas the offline mode consolidates the data at regular intervals.

Eventitude performs every function necessary to restrict the spectators' movements. Reports can be drawn to show exactly the patterns of crowd movement, which allows the authorities to make informed decisions on how to manage their venue. You can easily personalize Eventitude to your specific needs.

Who can use Eventitude?

Anyone who wants to use the latest cost-efficient technology to manage sports events, exhibitions, trade fairs, product demonstrations and shows will find Eventitude worthy. It can also prove beneficial to sports event sponsors, help authorities, security personnel and many more.

What are the features of Eventitude?

- Intelligent authentication of entry/exit
- Apt for any event
- Suitable for all size of venues
- Cost-efficient
- Ensure smooth entry and exit of spectators
- Highly customizable
- User friendly
- No queue delay—Swift entry process
- Generate reports

Who are we?

C2IL is a company providing development and implementation of software solutions and services. Using our rich software development experience, we have produced innovative Mobile and Pocket PC solutions that cater the need of the hour. C2IL takes immense pride to launch Eventitude, a wireless mobile application that is a "must" for anyone who plans or manages events of any kind.
